Premium Gravel Bag ♺

SECURE® COVERS

22/01/25

Premium Gravel Bags are **100cm long, 20cm wide** and made from the unique Secure Cover **250 gsm** knitted HDPE netting. Premium Gravel bags have a side and end handle with overlocked stitching. Each bag is supplied with a cable tie to close the end once filled.

Premium Gravel Bags are placed on top of Secure Covers netting to hold the netting and silage films in place, ensuring an airtight seal around the edges of the clamp and against the silage surface. When used with Secure Covers they are an excellent, labour-saving and tidier alternative to tyres.

Premium Gravel bags should be filled with **15-18kg of smooth (5-10mm)** pea shingle and secured with the supplied cable ties. Premium Gravel bags should then be placed around the perimeter of the clamp or bunker and left to right across the face with a small overlap between bags to seal. Where two sheets or nets meet in the clamp it is advisable to place another row of gravel bags on the join. When removing the bags, they can be placed on a pallet and stacked in layers 90 degrees to one and other and stored undercover away from direct sunlight.

Premium Gravel Bags

TECHNICAL DATA SHEET

SECURE® COVERS

PROPERTIES	WARP	WEFT
Raw - material	100% Virgin HDPE UV Stabilized	
Colour	Green	
Thread	660 DEN	
Mesh count	8 x 9 loops / in^2	
Weaving construction	Plain knitting	
Tensile strength (±10%)	16.2 KN/m	13.6 KN/m
Breaking power of the 5cm webbing for handles	900 N	
Breaking power of side handle (for the stitching strength)	700 N	
Breaking power of end handle (for the stitching strength)	850 N	
Thickness	250 gsm	
Weight	150 gr	
UV Resistance	1000 KLy	
Dimensions	100 x 20 (cm)	
Bundle of	50 bags (UK & EU areas) / 20 bags (ROW)
